

Sonor

Drums & Accessories

by M. Hohner, Inc.

One-point-contact, self-aligning strainer built so all 18 snares rest evenly on the head.

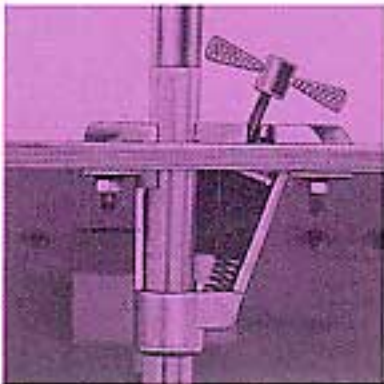

Self-aligning snares and strainer with 12 adjustable snares are easily interchanged.

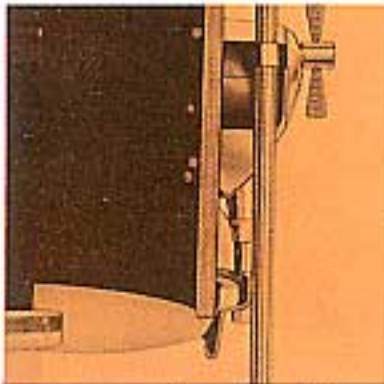

Parallel working, two-point-contact muffler has a special "on-off" control for instant response.

Vise-like lock keeps the 6-sided "L-shaped" cymbal holder in any position you put it.

An adjustable locking wedge guarantees the tom tom holder cannot rotate, bend, or slide. No drum key necessary.

Easy-access wing screws let you adjust the floor tom legs with no danger of marring the finish.

SUPER "TYRHO"
