Tom-Tom Holder Z 5503b as illustrated,
instead of Z 5504d.

All instruments are equipped with genuine
Remo Heads.

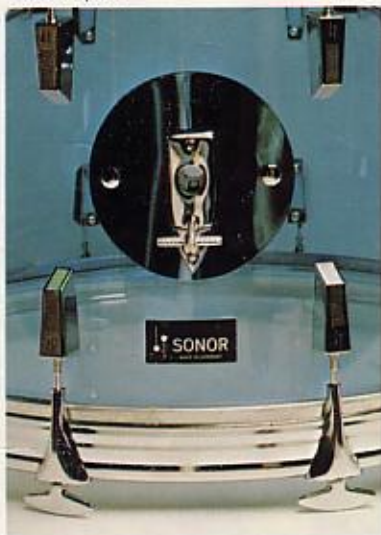

CYMBALS NOT INCLUDED

Two dimensional adjustable spurs with prism clamping device (patented) convertible from rubber tip to metal spur.

Self-aligning, spring-loaded inserts allow fast and easy tensioning of the heads.

Large chrome plated steel disc provides reinforcement for the shell mount and assures reliable positioning of mounted Tom-Toms.

Prism clamping device (patented) ensures positive locking of tom-tom legs.

- Tone control
- Snare strainer with 4 point tension
- Metal snares with 20 strands

The distinct attraction of SONOR ACRYLIC DRUM SETS is not only the optical effect, but also the special dry sound that is favored by Rock and Pop Groups. The see through effect that accentuates the activity of the drummer is further dramatized and highlighted through the use of transparent Remo heads. Sonor acrylic shells are made 6mm thick for extra strength and are heat resisting up to 100°C. They are welded with a double V through a special process. SONOR ACRYLIC DRUM SETS come in Smoky, Blue, Red and Clear.
