# "GRETSCH"<sup>®</sup> BROADCASTERS

*Finest Drums  
I Ever Owned"*

*Say America's Top-Flight Drummers*

When you are choosing drums you couldn't ask for a safer, surer buying guide than the example of the host of ace-drummers from coast to coast who own and play and enthusiastically endorse GRETSCH BROADCASTER DRUMS.

These professionals go for BROADCASTER good looks, spectacular finishes, and ultra-modern design, of course. And with each added year of faithful service they appreciate, more and more, the sturdy dependability of BROADCASTER construction.

But the important, the clinching factor in their choice of these drums is always that incomparable, unmistakable BROADCASTER *Tone* — developed and perfected in the course of 67 years' experience in building drums for hard-to-please drummers.

Whether you play drums or sell drums the same recipe for true drum-satisfaction holds good—buy GRETSCH BROADCASTERS, the drummer's drums!
