### SURE TUNE LUG

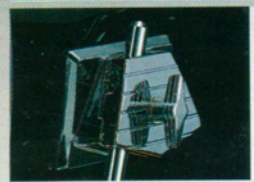

The lug nut is held inside the lug with a special patented nylon retainer, rather than the usual springs. The springs used by most manufacturers shake, rattle and resonate as a constant source of annoyance. The Tama Sure Tune Lug ensures solid tuning stability.

### SPUR BRACKET

Tama's Heavy duty die-cast spur system is strong enough to withstand the most punishing pedal pounding. Tama spurs mount externally for uncompromised sound and easy breakdown and storage.

### OMNI-SPHERE DOUBLE TOM HOLDER

This double tom holder offers you virtually unlimited freedom of set-up. The heart of the Omni-Sphere is a hardened nylon ball joint that goes just where you want it. Adjusted lightly, it allows you to move the tom toms easily, but hold them in place. When you find the right position, just lock things up. Most other universal-type holders have parts that protrude into the tom tom shell. All Tama mounting hardware is on the outside of the tom toms, allowing maximum freedom of tone.

WHEN IT COMES TO DRUM HARDWARE, NO ONE HAS BEEN MORE INNOVATIVE THAN TAMA. THE TAMA STILT SYSTEM WAS DEVELOPED TO OVERCOME THE LIMITATIONS OF THE ORDINARY STRAIGHT STAND. STILT'S SIMPLE YET EFFECTIVE TILTING CAPABILITIES FILL THE VOID THAT EXISTED BETWEEN STRAIGHT AND BOOM STANDS. THE STILT TILTING FEATURE HAS BEEN INCORPORATED INTO THE ENTIRE LINE OF OUR ULTRA-HEAVY DUTY TITAN STANDS AND NEWLY DESIGNED MERCURY STANDS YIELDING A TOTALLY UNIQUE LOOK.

# LEVER GLIDE

## HI-HAT REVOLUTION

TAMA'S NEW LEVER GLIDE SYSTEM REPRESENTS A REAL HI-HAT REVOLUTION.
